

AMICO DREVO

Three-Layer Board SD1

Technical characteristics:

- made with wood from Central European spruce
- three-layer structure cross 9mm
- manufactured in continuous (unframed), allows the cutting of panels
- minimal distortion
- high bending resistance
- moisture resistant according to DIN (AW100)
- lengths: 970, 1000, 1500, 1970, 2000, 2500, 3000, 4000 y 5000 mm
- widths: 2000, 1000, 500, 450, 400, 350, 300 y 250 mm
- thicknesses: 21 y 27 mm
- weight: 21 mm ca. 10,0 kg/m² y 27 mm ca. 12,5 kg/m²
- universal application

Dimensions for formworks:

2500x500x27 mm
2000x500x27 mm
1970x500x27 mm
1000x500x27 mm
