QUICK AND LITE
PANIC EXIT DEVICES

ASSA ABLOY

ASSA ABLOY, the Global leader in door opening solutions

BAYGAR

The new panic exit devices developed by **TESA** add a modular design under the same platform, giving you many benefits from the moment you buy them.

NEW PANIC EXIT DEVICES

QUICK AND LITE

BENEFITS FROM START TO FINISH

INSTALLATION

NO ONE MAKES IT EASIER

FITS EASILY ON THE DOOR

To install the panic exit device, base plates are fixed to the door so the screws can be placed at different positions leaving the door ribs free. Next step is to fit the panic exit device on the baseplate. Quick and easy.

SOLUTIONS FOR ALL TYPE OF DOORS

Aluminum profile, PVC, wood and fire-rated doors. We have a solution for any door. Different combinations depending on the number of locking points allow to use this new panic exit device in single leaf or double leaf doors.

OTHER FACILITIES

The strikes are ready for different doors, and are designed to be used in different rebate sizes. The narrow, small and low projection covers shown a soft design, and fit very well in different door styles.

Standards

- CE marking according UNE-EN1125.
- Product certified for fire rated doors, tested according UNE-EN1634-1.

PRICE

PAY JUST FOR WHAT YOU NEED

ONE SOLUTION FOR EVERY SINGLE NEED

The new range of panic exit devices developed by **TESA** is based on a standard product, allowing to add different options to get the proper solution to your needs. This possibility allows our product to be customized so you will only pay for what you need.

MODULARITY

MADE-TO-ORDER PRODUCT

LIMITED STOCK

A limited stock of component parts allows us to design a variety of solutions.

SINGLE PLATFORM

LITE and **QUICK** series panic exit devices have been designed under the same platform, so either one can be used in the same installation. Architects and installers can choose either model because both of them use the same fixing system. The accessories for both models are also identical, making warehouse management easier and providing new benefits to installers.

OUTSIDE TRIM: MODULAR LEVER HANDLE

Different options available, including clutching system, lever handle, knob, exchangeable cylinders allowing master keying, ...

The outside trim is supplied without cylinder
